# INTRODUCTION

---

## HELLO! I'M AADIITYA VERMA

AN AVID LEARNER AND A SERIOUS POLYMATH WHO'S CURIOUS ABOUT HOW THIS WORLD FUNCTIONS. GIFTED WITH BRAIN AND LOGIC OF AN ENGINEER BUT A HEART FULL OF EMOTION AND LOVE FOR AESTHETICS, HELPS ME DEVELOP MEANINGFUL PROJECTS WITH PRACTICALITY AND EXPRESSION. HERE I AIM TO SHARE MY WORKFLOW AND THINKING BEHIND INNOVATING SOMETHING NEW.

### EDUCATION

HIGH SCHOOL & HIGHER SECONDARY:

DELHI PUBLIC SCHOOL, AGRA  
(2017-2018) & (2019-2020)

B. TECH IN INFORMATION TECHNOLOGY:

KAMLA NEHRU INSTITUTE OF TECHNOLOGY, SULTANPUR  
(2022-2026)

### DESIGN SKILLS

- DESIGN THINKING
- PROTOTYPING
- 3D RENDERING
- VISUAL & VIRTUAL CONCEPTS
- USER EMPATHY

### SOFTWARES

- PHOTOSHOP
- ILLUSTRATOR
- BLENDER
- CANVA

# MY WORKFLOW

---

WORKFLOW IS AN IMPORTANT DETAIL FOR ANY PROFESSIONAL AS IT DEFINES HOW EFFICIENT AND EFFECTIVE THEY CAN BE IN COMPLETING A DESIGN TO A REAL LIFE PROJECT. HAVING AN ENGINEERING BACKGROUND I USE LOGIC AND PRACTICALITY OF A ENGINEER BUT MY DESIGNS ARE AESTHETIC JUST LIKE AN ARTIST, THIS GIVES ME A UNIQUE PERSPECTIVE OF HOW THINGS WORK INTERNALLY YET HOW THEY CAN BE APPEALING AND FUNCTIONAL EXTERNALLY.....

## RESEARCH

PROBLEM STATEMENT IS IDENTIFIED AND REQUIREMENTS OF THE PROJECT DESIGN AND FUNCTIONALITY IS OUTLINED

## MANUAL DRAWING

SKETCH IDEATIONS AND FORMS ARE DECIDED BY PUTTING PEN TO PAPER AND SKETCHING

## FINAL SKETCH RENDERS

FINAL COLORED RENDERS ARE DEVELOPED WITH FINAL PRODUCT FORMS

## FINAL RENDERS

FINAL RENDERS USING RENDER ENGINES ARE CREATED IN BLENDER AND POST PROCESSED

## 3D MODELING

MODEL IS MADE AND MATERIALS ARE FINALISED

# DESIGN PORTFOLIO

SMART TABLET  
BOX.....

11:11

PM

30/1/2020

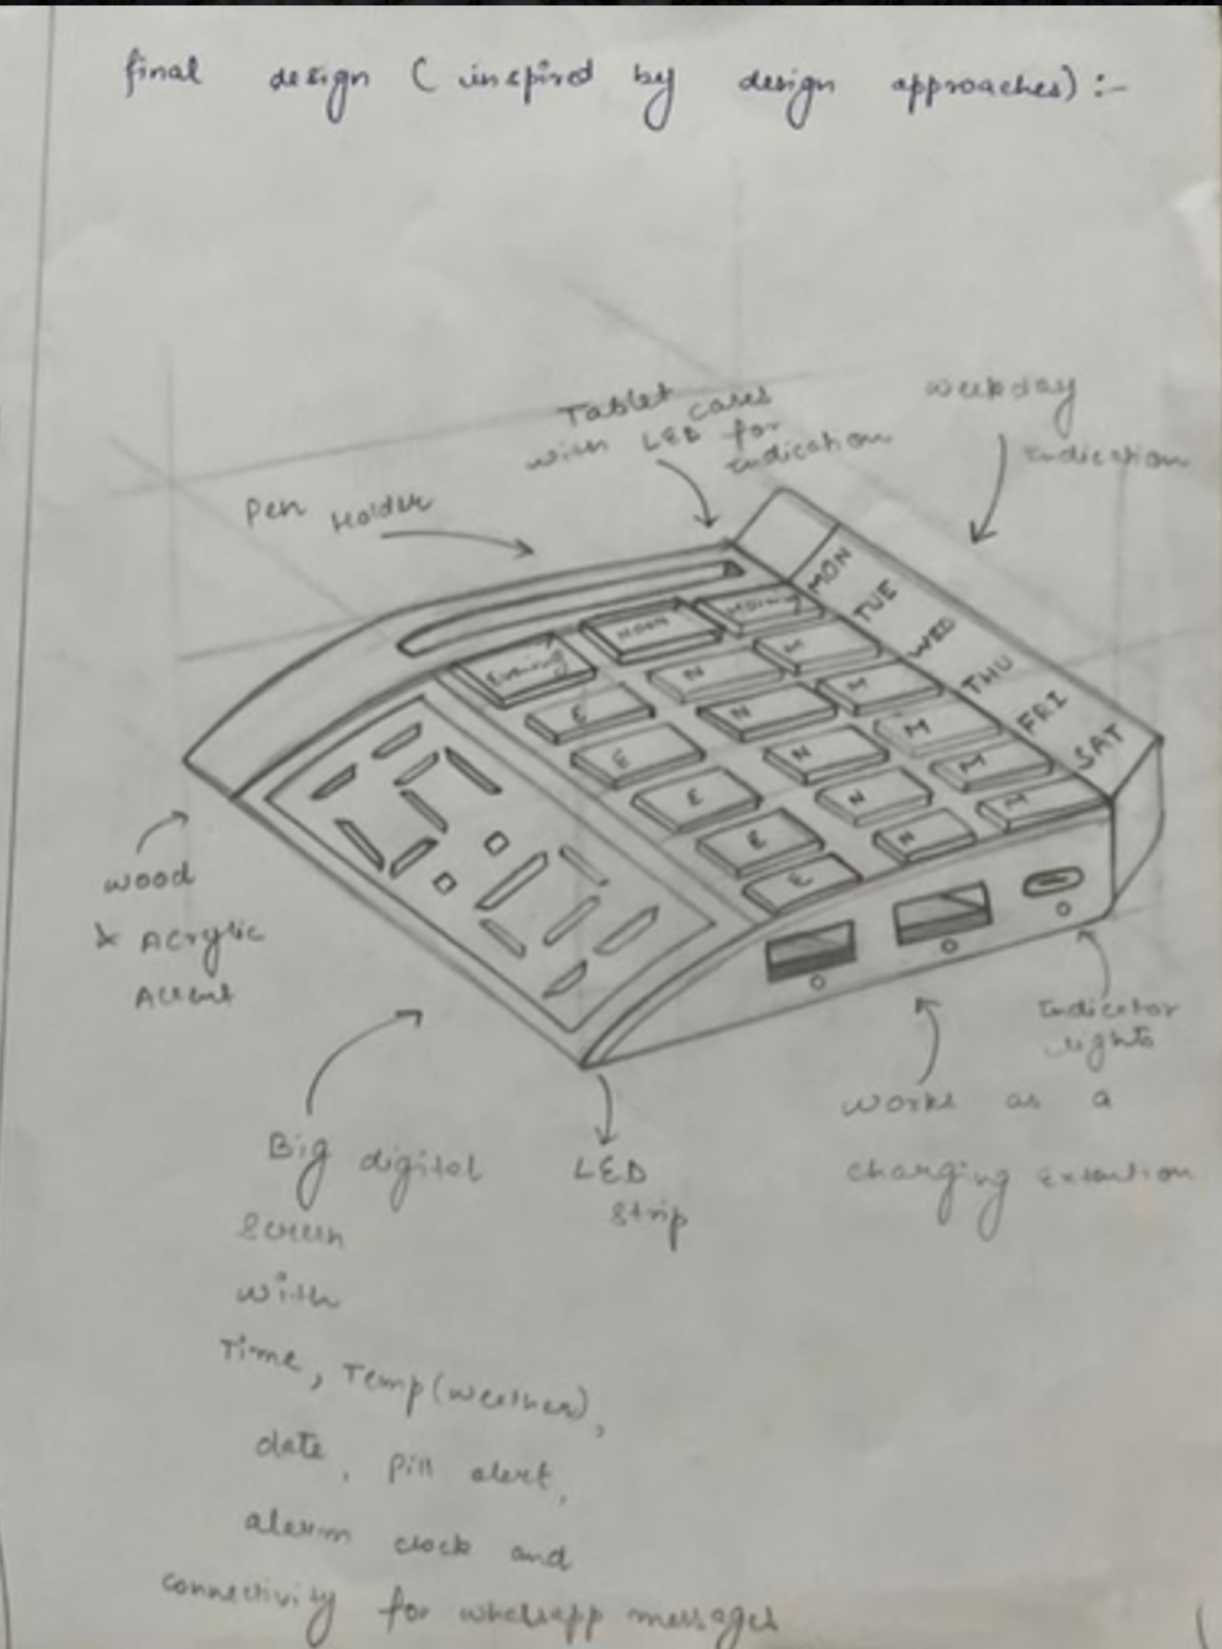

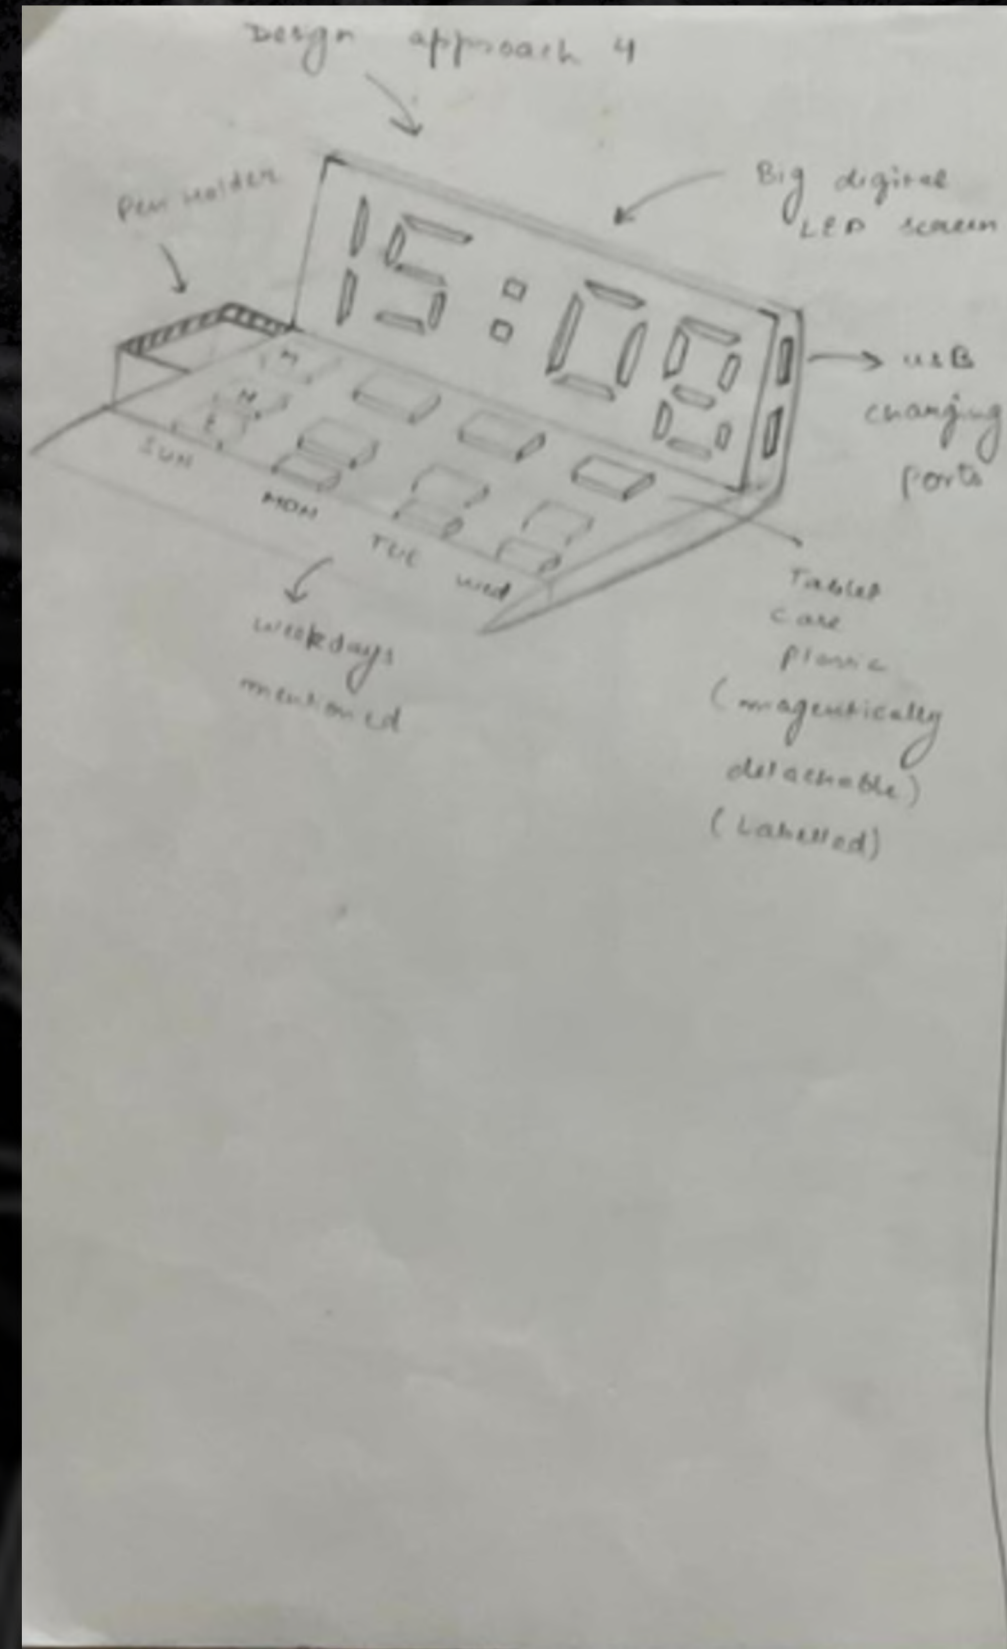

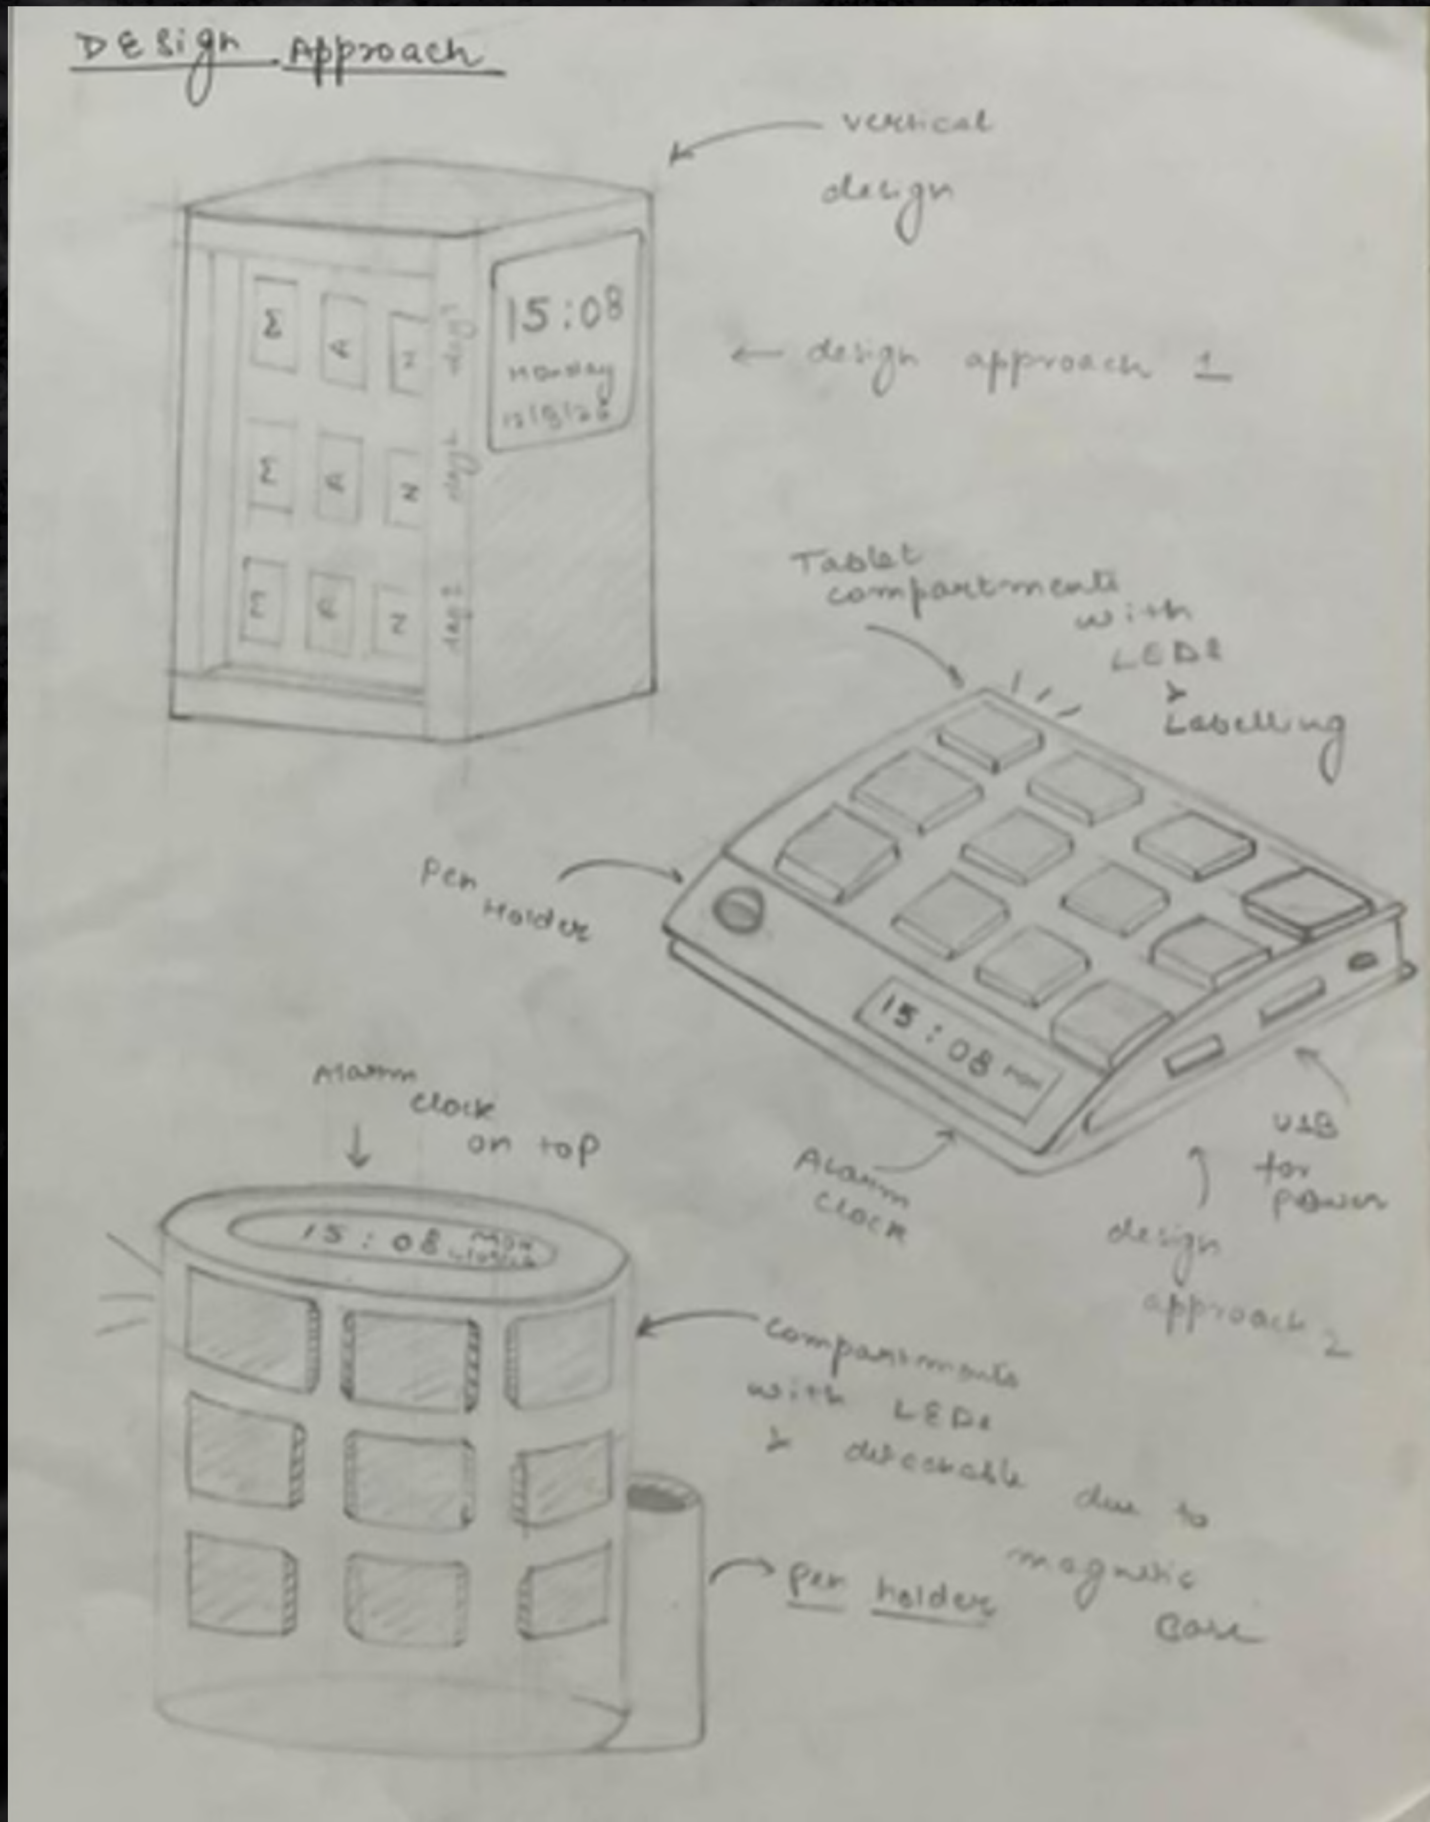

# PROBLEM STATEMENT:

THE SMART TABLET BOX IS AN IOT-INTEGRATED MEDICATION MANAGEMENT SYSTEM DESIGNED TO ELIMINATE NON-ADHERENCE THROUGH VISUAL HAPTICS AND REAL-TIME DIGITAL FEEDBACK. IT FEATURES A 7X3 MATRIX COVERING A FULL WEEKLY CYCLE (MORNING, AFTERNOON, NIGHT) WITH HIGH-CONTRAST, BACKLIT COMPARTMENTS AND AN INTEGRATED OLED HUD FOR TIME, DATE, AND ENVIRONMENTAL MONITORING.

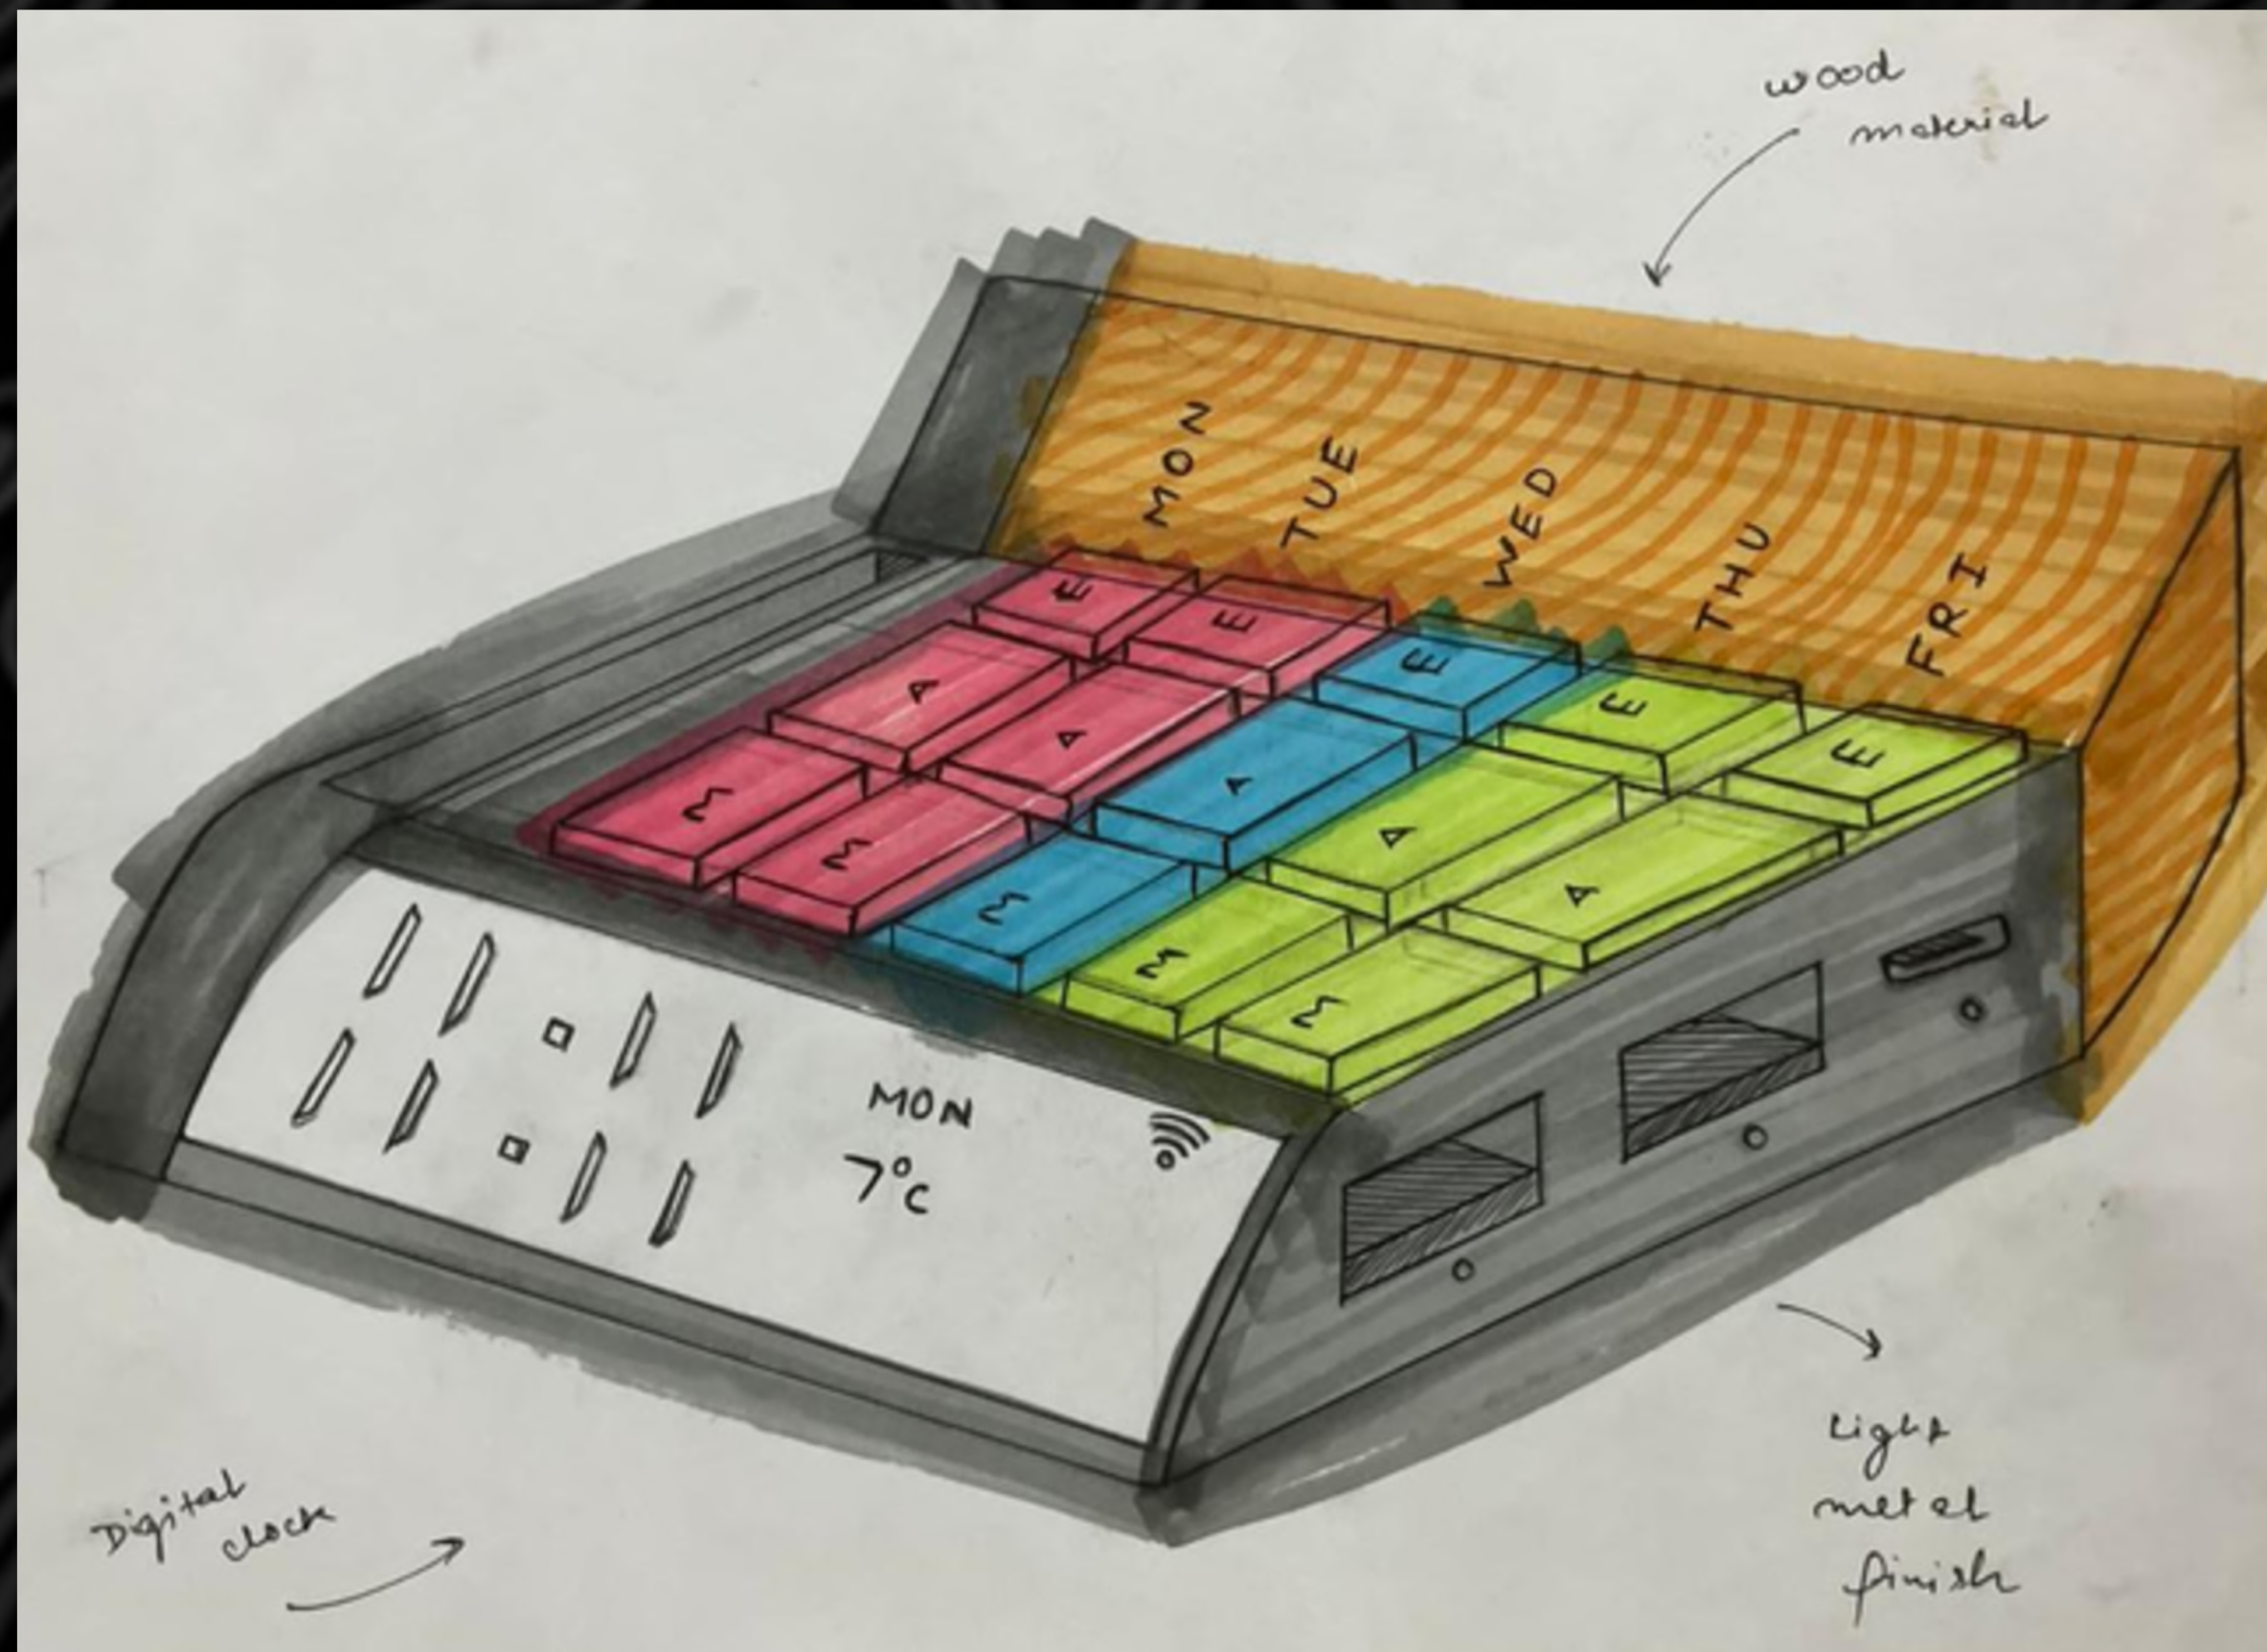

## DESIGN POINTS:

- TEMPORAL LOGIC MATRIX: ORGANIZED THE LAYOUT INTO A 7-DAY, 3-TIER GRID (M/A/N) TO PROVIDE AN INTUITIVE, "AT-A-GLANCE" STATUS OF THE USER'S HEALTH REGIMEN.
- CHROMATIC CUES: UTILIZED COLOR-CODED BACKLIGHTING (WARM/COOL/NEUTRAL) TO HELP THE USER DISTINGUISH BETWEEN DOSAGE TIMES, EVEN IN LOW-LIGHT ENVIRONMENTS.
- INFORMATION-RICH HUD: INTEGRATED A FRONT-FACING DIGITAL DISPLAY TO PROVIDE ENVIRONMENTAL CONTEXT (TEMPERATURE/HUMIDITY) WHICH CAN AFFECT MEDICATION STABILITY.
- CONNECTIVITY STACK: DESIGNED FOR BLUETOOTH AND WI-FI INTEGRATION TO ALLOW FOR REMOTE MONITORING BY CAREGIVERS AND AUTOMATED PUSH-NOTIFICATION REMINDERS.

# FINAL 3D RENDER

VAYURA.....

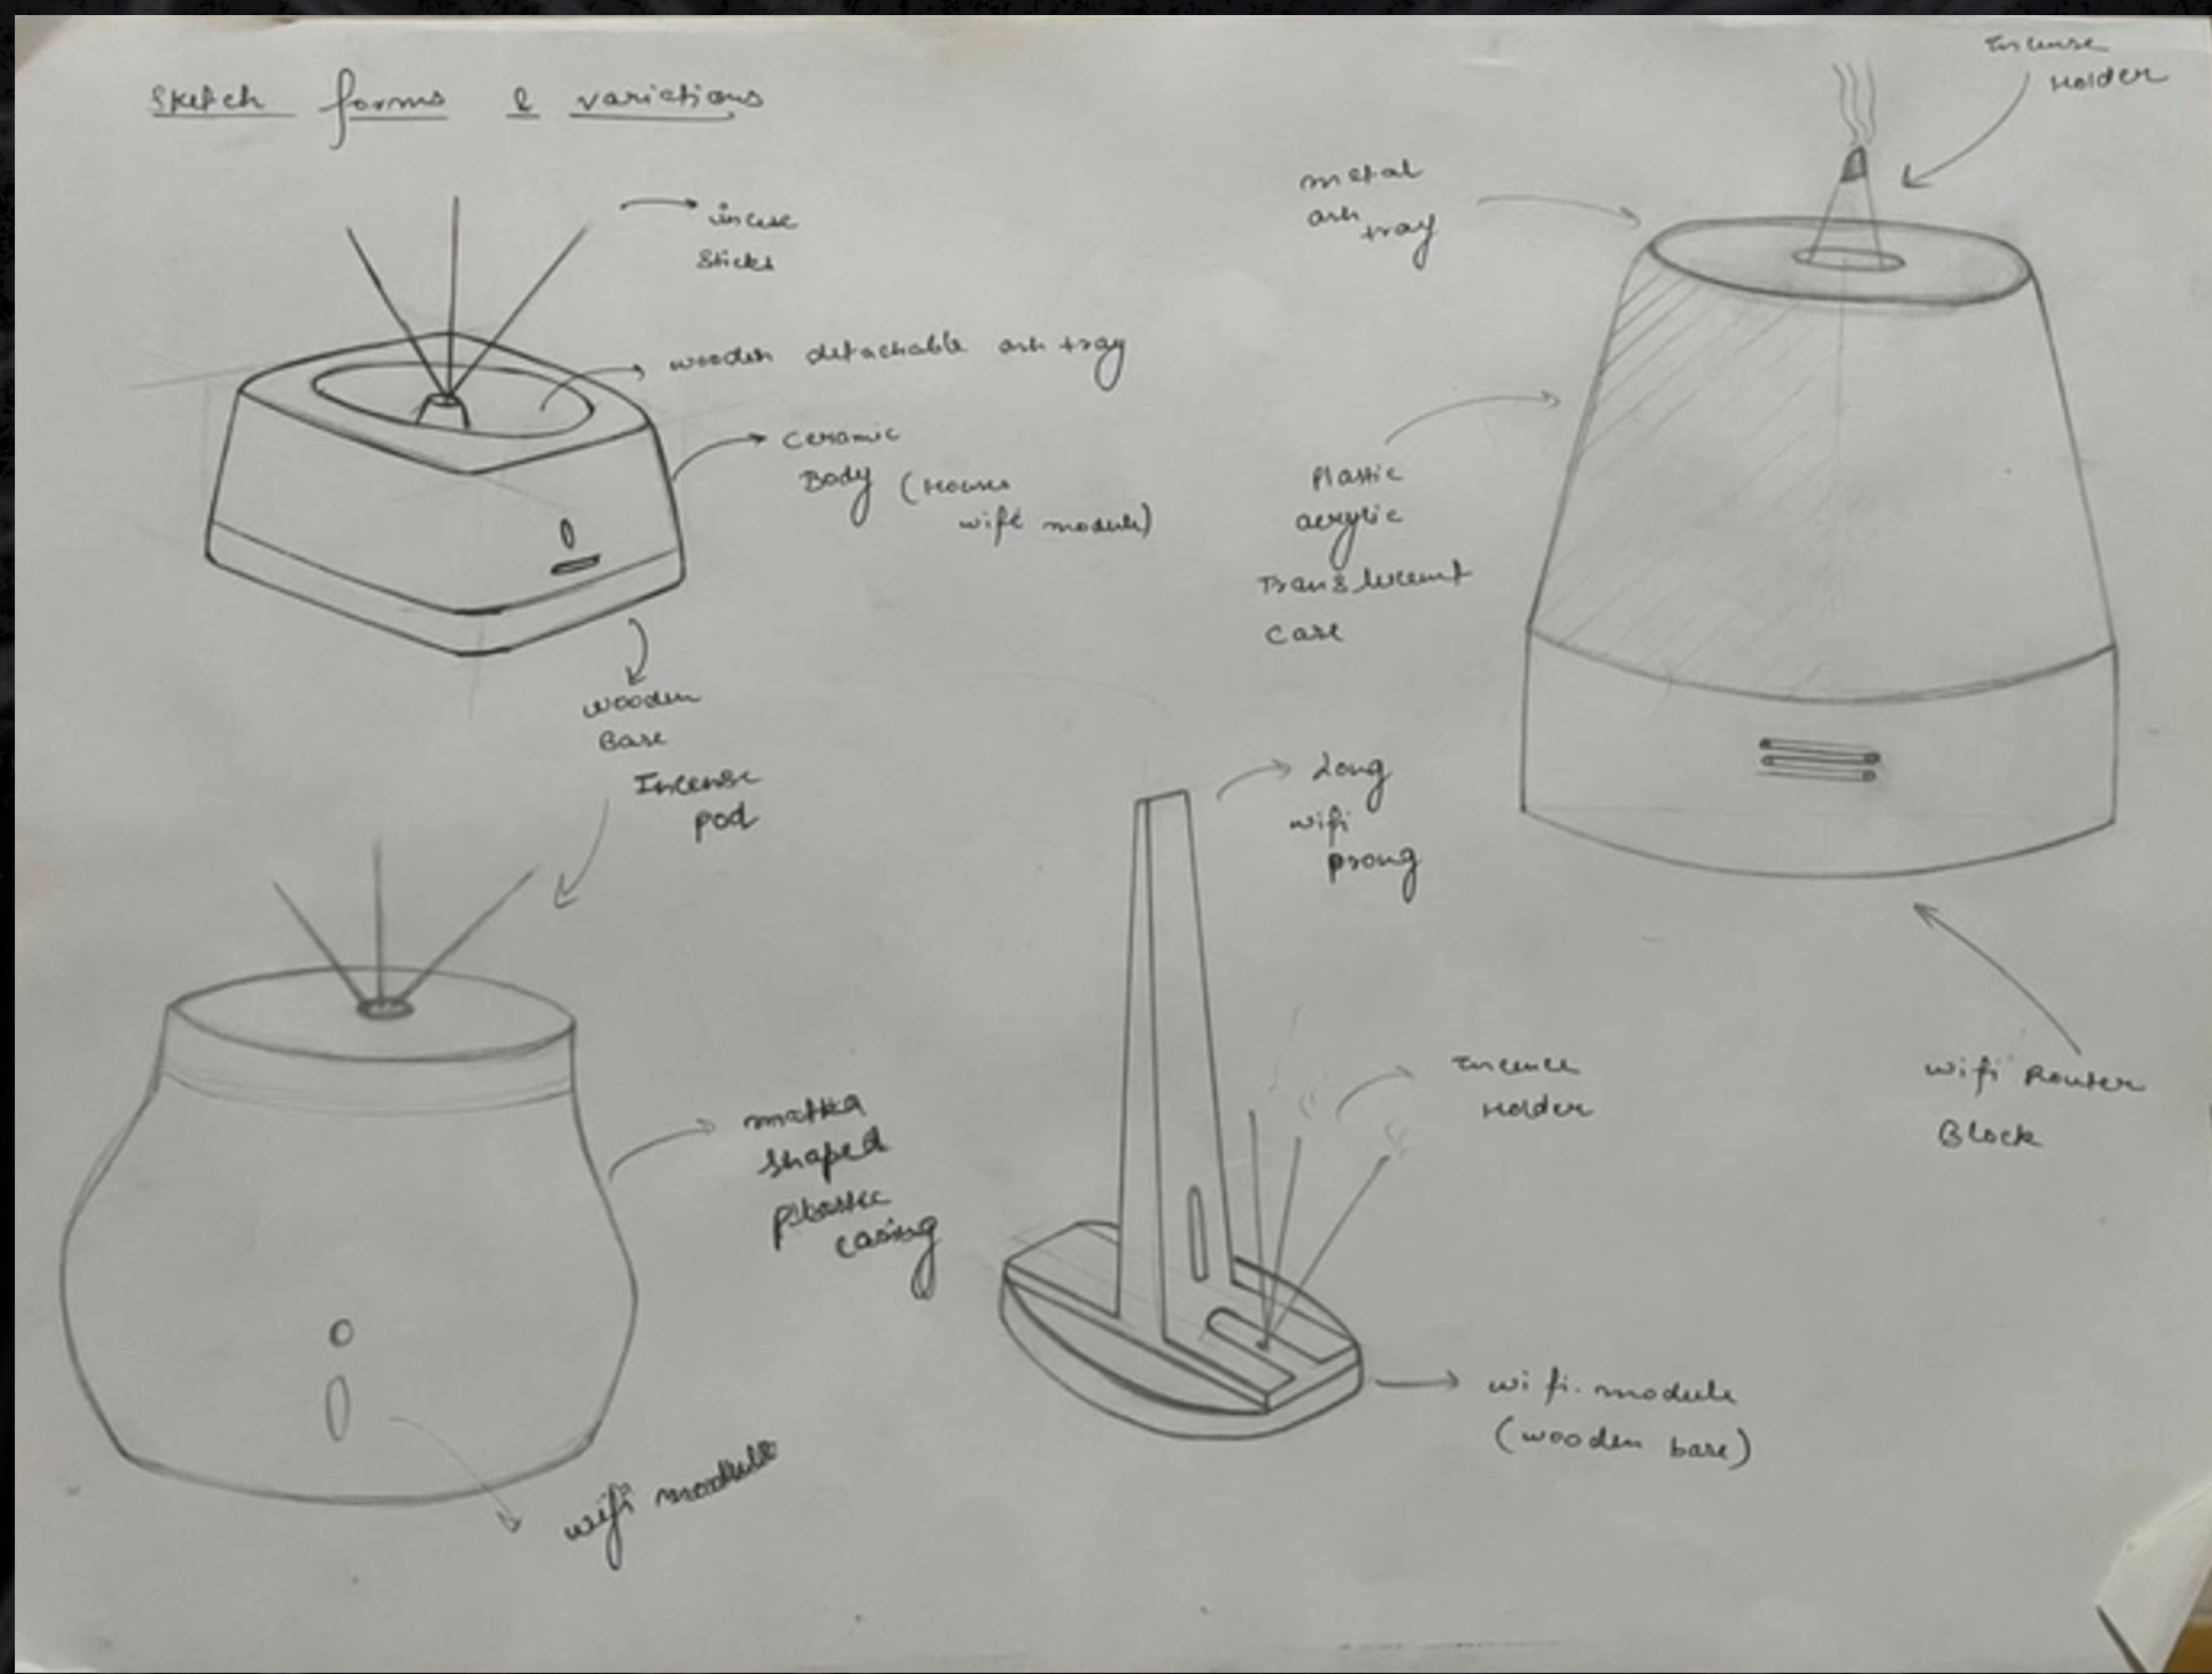

# PROBLEM STATEMENT:

VAYURA IS A DUAL-PURPOSE ATMOSPHERIC DEVICE THAT MERGES A HIGH-PERFORMANCE WI-FI 6 ROUTER WITH A SMART SCENT-DIFFUSION SYSTEM. DESIGNED TO SIT AT THE HEART OF THE MODERN HOME, IT UTILIZES THE WASTE HEAT GENERATED BY THE ROUTER'S INTERNAL PCB TO FACILITATE THE DIFFUSION OF ESSENTIAL OILS THROUGH A BOROSILICATE GLASS COLUMN, TURNING A TECHNICAL NECESSITY INTO A SENSORY CENTERPIECE.

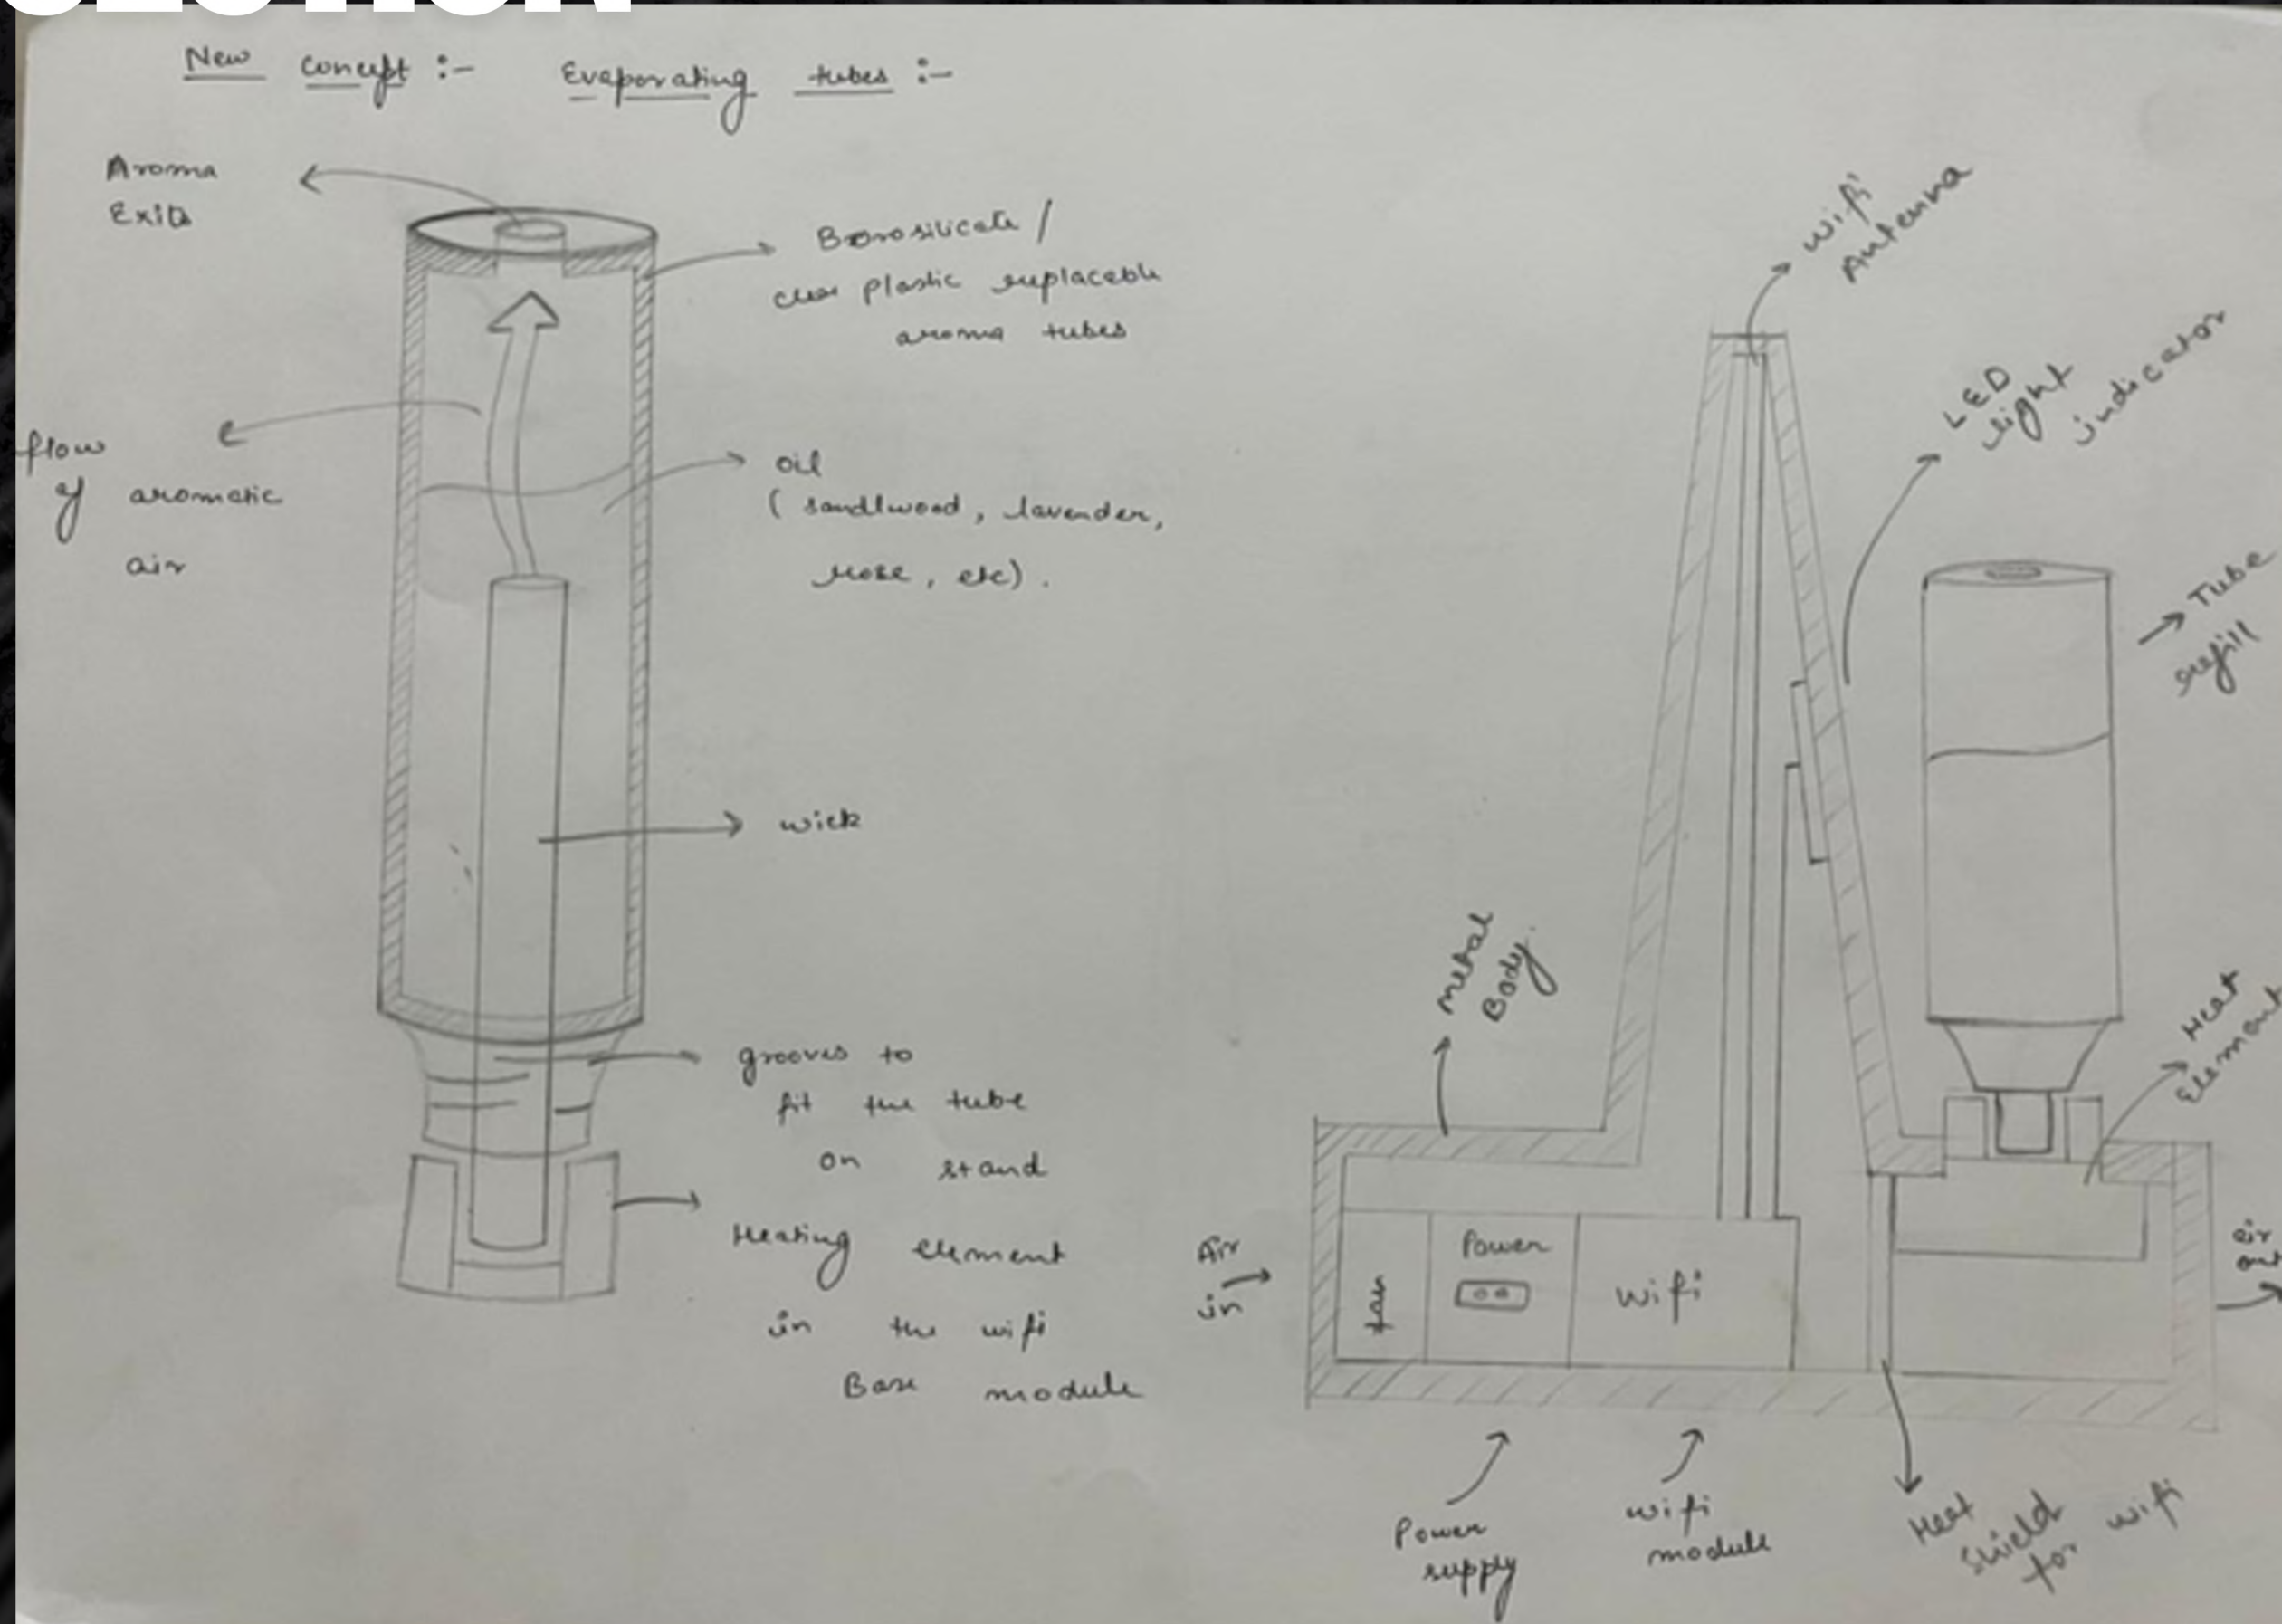

## DESIGN POINTS:

- THERMAL SCAVENGING: ENGINEERED INTERNAL AIRFLOW TO UTILIZE ACTIVE HEAT FROM THE ELECTRONICS AS A RESOURCE FOR SCENT DIFFUSION.
- MATERIAL CONTRAST: USED A WARM, ORGANIC WOOD-GRAIN BASE AGAINST A PRECISION-MACHINED MONOLITHIC SPIRE TO BRIDGE THE GAP BETWEEN "TECH" AND "HOME."
- CIRCULAR HAPTICS: INCORPORATED A BASE-LEVEL LED RING TO PROVIDE NON-INTRUSIVE STATUS UPDATES (CONNECTIVITY, OIL LEVELS) THROUGH SOFT, AMBIENT LIGHT.
- MODULAR ENCAPSULATION: DESIGNED QUICK-SWAP GLASS CAPSULES FOR EASY MAINTENANCE AND SCENT VARIETY WITHOUT CROSS-CONTAMINATION.
